<u>Parent Homework ☺</u>
<u>Download These Apps</u>

Attached you will find some information on our apps we will be using throughout the school year. It is **<u>extremely important</u>** for you to download both of these, as these are how we will be communicating and assigning lessons. They are both Seesaw, but one is called **<u>Seesaw Family</u>** and the other is called **<u>Seesaw Class</u>**.

*You will want to download the **Seesaw Family app** to a parent device (cell phone recommended). This is how we will communicate with each other. See the attached directions to do this.

*You will want to download the **Seesaw Class app** to a device your child will be using (iPad, tablet, or cell phone). If your child will be using a chromebook, laptop or computer, you will need to go to the website each time to log in https://app.seesaw.me/#/login As soon as our classroom iPads arrive, this app will already be downloaded but you will want to keep your child's login info handy for when they bring it home to use.

See the attached directions on how to do this. Please be careful to not mix up the information attached in the apps. (ex. Seesaw Family Invite is for the Family app – Seesaw Home Learning Code is for the Class app)
